At Maple Valley Nursery, we propagate and grow over 70 varieties of native azaleas and their deciduous hybrids. This group of deciduous Rhododendrons includes many different species. We are currently growing *Rhododendron austrinum*, *alabamense*, *arborescens*, *calendulaceum*, *canescens*, *cumberlandense*, *flammeum*, *viscosum*, *periclymenoides*.

Many of our hybrids were developed through the hard work of Dr. Eugene Aromi, Kelly Strickland, Earl Sommerville, R.O. Smitherman and others. They have been bred for heat tolerance and beautiful, colorful flowers. Our plants are offered to wholesale growers, retail nurseries and landscape professionals.

Rhododendron Species at Maple Valley Nursery

Rhododendron alabamense
Rhododendron arborescens
Rhododendron austrinum

Rhododendron calendulaceum
Rhododendron canescens
Rhododendron cumberlandense

Rhododendron flammeum
